

PRESS RELEASE

For immediate release

10 August 2010

Click Energy is one of the last Electricity Retailers to increase its electricity prices to the new Queensland Regulated Electricity retail price.

Since the Queensland Competition Authority approved new Regulated Prices for Queensland in June 2010, most retailers automatically increased their prices, however Click delayed changing its prices until mid August, absorbing the additional costs for as long as possible.

Queensland Regulated Price Change Notice – <http://www.qca.org.au/electricity-retail/NEP1011/finaldec.php>

The retail prices increased due to increases in the wholesale costs of electricity and the cost of delivering the electricity to you via the poles and wires.

Rest assured that Click Energy, as Australia's only dedicated online electricity retailer, is well placed to continue to deliver cheap priced energy and we'll continue to save you money on your energy bills... and we think that navigating through our cool new website will help save you time as well.

The following film clip is from Channel 10 news, which shows that Queenslanders, who shop around, will save the most with Click Energy. Plus as Click does not have any lock in contracts or exit fees, if this is not the case and you can find cheaper electricity elsewhere, then Click doesn't deserve your business.

About Click

Choosing an electricity company should be easy.

Click Energy started supplying electricity in Victoria in 2006. Since then, we have been one of the cheapest electricity retailers in the market* – and we plan to stay that way.

As an online electricity company, we don't have the same overheads as other energy companies. With our customer base continually growing, we can achieve economies of scale, which translates to real savings in our operating model. The benefits of this model allow us to absorb industry cost rises – and in turn share our savings with our customers.

And we do.

Click is Australian owned and operated with offices in Melbourne and Brisbane. Contrary to today's public perception, we want to do our bit to help people in managing the ever-increasing cost of living... and our mandate is to always provide cheap electricity to our customers. Click runs a 'no paper bill' operation, and won't charge for

credit card payments. We don't have lock in contracts or exit fees, so if you do find we aren't the cheapest then we don't deserve your business.

To see how we can save you money, visit us at www.clickenergy.com.au or call one of the team on **1800 775 929**, and...
