About Click

Choosing an electricity company should be easy.

Click Energy started supplying electricity in Victoria in 2006. Since then, we have been one of the cheapest electricity retailers in the market* – and we plan to stay that way.

As an online electricity company, we don't have the same overheads as other energy companies. With our customer base continually growing, we can achieve economies of scale, which translates to real savings in our operating model. The benefits of this model allow us to absorb industry cost rises – and in turn share our savings with our customers.

And we do.

Click is Australian owned and operated with offices in Melbourne and Brisbane. Contrary to today's public perception, we want to do our bit to help people in managing the ever-increasing cost of living... and our mandate is to always provide cheap electricity to our customers. Click runs a 'no paper bill' operation, and won't charge for credit card payments. We don't have lock in contracts or exit fees, so if you do find we aren't the cheapest then we don't deserve your business.
